

I am asking you not to incorporate the LPFM system. If you do this, you would affect the AIR 1 radio program. This program is very important to our youth as well as the adults that get fed spiritually from it. As an assistant youth pastor, I am telling you how important it is that you keep air 1 on the air. Many kids need an alternative to todays music (that usually contains lyrics that are inappropriate) what you feed into your mind will eventually reach your heart.

Please help us minister to teenagers instead of turning the other way for our own pleasures.

Thank You

Tina GRoom
